

COLLISION REPAIR TECHNOLOGY

What is Collision Repair Technology?

Accidents happen. Whether it's a major crash or a fender bender, collision repair technicians have the skills to make vehicles look new again.

If you are a problem solver and you like to work with your hands, OCTC's Collision Repair Technology program might be for you. Each damaged vehicle brings a complex set of issues, and our students learn to tackle these challenges with a stockpile of repair techniques. The program includes classroom instruction as well as hands-on activities such as welding, filling, painting and more. Our students benefit from the expertise of our instructors while gaining experience in our state-of-the-art facilities.

Job Outlook

Technicians in this high demand field may go to work for car dealerships or body shops.

In Kentucky, automotive body repairers earn an average salary of \$40,229.* Learn more about where our graduates Go2Work at www.owensboro.kctcs.edu/gradsGo2Work

COLLISION REPAIR TECHNOLOGY

Recommended course sequence

Fall Semester 1

Course	Course Title	Credit Hours
CRT 130	Non-Structural Analy & Damage Repair	6
CRT 131	Non-Structural Analy & Damage Repair Lab	6
CRT 100	Intro to Collision Repair	2
	Digital Literacy	3

Spring Semester 2

CRT 150	Painting & Refinishing	6
CRT 151	Painting & Refinishing Lab	6
ENG 101	English I	3

Summer Semester 3

	Natural Science	3
	Social Interaction	3

Fall Semester 4

CRT 230	Structural Analysis & Damage Repair	6
CRT 231	Structural Analysis & Damage Repair Lab	6
	Math 110 / 150	3

Spring Semester 5

CRT 250	Mechanical & Electrical Comp	6
CRT 251	Mechanical & Electrical Comp Lab	6
	Heritage/Humanities	3

Total Credit Hours 68
